

October 2015

Dear Parents/Carers,

We have been running our breakfast club now for eight years and hope we are making a difference to your lives, by ensuring you get to work on time or just enabling your children to enjoying a healthy breakfast and socialise with their friends before school.

We are trying all the time to make breakfast club not only healthy and enjoyable for the pupils but also to make the most of opportunities for learning, for exercise and for socialising.

We do this in many ways including:

1. Using a variety of different board games, drawing activities, indoor group games and indoor table tennis.
2. Inviting some pupils to join in an online reading programme to support and challenge their progress.
3. We have recently introduced fitness activities, run by a qualified coach, for all age groups. These activities include running, fitness challenges, netball or football skills and many more fun activities.

Unfortunately, since we have started the breakfast club we have been running it at a loss and because of financial restraints, the Governors have decided that we will have to increase the price to £1.50.

However if you are in receipt of FSM the breakfast club will be free.

Also, if your child is invited to take part in the Lexia sessions, as long as your child is in school before 8.25 am, they will be entitled to a free breakfast on that day.

We sincerely hope that your child will still be able to come to breakfast club, as we believe it is still extremely good value for money.

The new breakfast charge will start on December 7<sup>th</sup> 2015.

Thank you for your continued support.

Yours sincerely,

*PA Graham*
